

New ways to discover what's in the public catalog are coming!

Westchester Library System recommends that patrons download any saved lists from their accounts before April 24, 2023.

The image shows two screenshots from the Westchester Library System interface. The top screenshot is the 'My Lists' page, where the 'My Lists' tab is selected (indicated by a yellow circle with the number 1). Below the navigation tabs, there is a 'Create New List' section with input fields for the list name, description, and a 'Share this list?' dropdown. Below this is the 'My Existing Basket and Lists' section, which lists saved lists: 'Christmas Movies', 'Crafts!', and 'Horror Movies'. Each list has buttons for 'Hide', 'Delete List', 'Download CSV', and 'Make Default List'. Yellow arrows point to the 'Download CSV' buttons, with a yellow circle and the number 2 next to the first arrow. The bottom screenshot is a file download dialog box. The 'File name' field contains '693246Christmas Movies' and the 'Save as type' field is set to 'Microsoft Excel Comma Separated Values File'. A yellow circle with the number 3 is next to the 'Save' button.

From the patron's account, open the My Lists tab and scroll down to the My Existing Basket and Lists section.

1. To the right of each Saved List, click the Download CSV button.
2. Save the CSV file.
3. Locate your downloaded book lists in your downloads folder.
